

Girls Exploring Math & Science

Saturday, February 20, 2010
9 a.m. - 12 p.m.
Open to all ages

The Girl Scouts of San Jacinto Council and the Houston Museum of Natural Science invite you to attend the Girls Exploring Math and Science (GEMS) event of 2010. The Museum's Grand Hall and permanent exhibit halls will be filled with hands-on science and math for everyone to experience. Local professionals will be at the Museum to answer questions about their careers in the fields of science, technology, engineering and math. This is a perfect opportunity for families to become involved and encourage students to excel in math and science in order to reach their career goals.

GEMS is open to Girl Scouts of all ages, as well as friends and family. Explore the world of math and science right here at the Museum as a troop field trip or a family outing. Visit the Museum's exhibit halls, see booths and activities created by Girl Scout troops, play science and math games, try your hand at cool contraptions and much, much more!

Check the museum website in January for more information to buy your tickets early to attend GEMS 2010!
