

All camps going smoke free

The countdown continues. All GSSJC camps will be smoke-free effective **January 1, 2011**. Please take note that it has been determined that for the health and well-being of both girls and adults this is a responsible position for the Council to take and our membership to support.

There is no argument about the proven hazards of smoking or dipping tobacco. The smoke-free policy for all buildings and grounds will be enforced. We are asking your support in helping us to provide a healthful and safe environment for girls and adults to enjoy themselves and to lead by example. Thanking you in advance for your cooperation.
