## Independent Auditors' Report

To the Board of Directors of  
Girl Scouts of San Jacinto Council:

We have audited the accompanying financial statements of Girl Scouts of San Jacinto Council, which comprise the statements of financial position as of August 31, 2016 and 2015 and the related statements of activities, of functional expenses, and of cash flows for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements** – Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

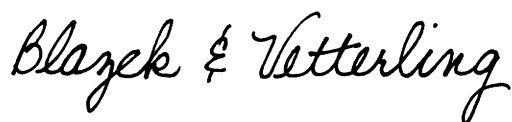

**Auditors' Responsibility** – Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion** – In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Girl Scouts of San Jacinto Council as of August 31, 2016 and 2015 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Supplementary Information** – Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. Supplementary information in the supplemental statements of revenue for the years ended August 31, 2016 and 2015 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## Girl Scouts of San Jacinto Council

Notes to Financial Statements for the years ended August 31, 2016 and 2015

---

### NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization – Girl Scouts of San Jacinto Council (GSSJC) was chartered by Girl Scouts of the USA in 1922 and is one of the largest Girl Scout councils in the nation with over 58,000 girls served across southeast Texas and over 16,000 adult members who gave their time and talents in 2016. GSSJC programs seek to build girls of courage, confidence and character, who make the world a better place. Girls care about, inspire and team with others locally and globally. Through the Girl Scout Leadership Experience, girls in kindergarten through 12<sup>th</sup> grade learn to understand themselves and their values and use their knowledge and skills to explore the world.

Federal income tax status – GSSJC is exempt from federal income tax under §501(c)(3) of the Internal Revenue Code and is classified as a public charity under §509(a)(1) and §170(b)(1)(A)(vi).

Cash equivalents are highly liquid financial instruments with original maturities of three months or less which are not restricted for long-term purposes. Cash equivalents that are not used to meet immediate operating cash requirements or restricted for long-term purposes are grouped with investments.

Investments are reported at fair value. Short-term investments primarily include securities that are not needed to meet immediate cash operating requirements. Investment return is reported in the statement of activities as an increase in unrestricted net assets unless the use of the income is limited by donor-imposed restrictions. Investment return whose use is restricted by the donor is reported as an increase in temporarily restricted net assets.

Inventory is reported at the lower of cost or market, with cost being determined on a periodic weighted-average basis. Inventory primarily consists of uniforms, badges, handbooks and supplies used by members in their Girl Scout activities. A significant portion of inventory is purchased from Girl Scouts of the USA.

Pledges receivable that are expected to be collected within one year are reported at net realizable value. Pledges receivable that are expected to be collected in future years are discounted to estimate the present value of future cash flows. Amortization of discounts is included in contribution revenue. An allowance for uncollectible pledges is estimated based on management's periodic evaluation of past loss experience, known adverse situations that may affect the donor's ability to pay, and current economic conditions.

Property and equipment is reported at cost if purchased and at fair value at the date of gift if donated. Depreciation is provided on a straight-line basis over estimated useful lives of 3 to 40 years. GSSJC capitalizes property and equipment that have a useful life greater than one year and a cost of more than \$1,000.

Net asset classification – Contributions, investment return, and the related net assets are classified based on the existence or absence of donor-imposed restrictions, as follows:

- *Unrestricted net assets* include those net assets whose use is not restricted by donor-imposed stipulations, even though their use may be limited in other respects, such as by contract or board designation.
- *Temporarily restricted net assets* include contributions and investment return restricted by the donor for specific purposes or time periods. When a purpose restriction is accomplished or a time restriction ends, temporarily restricted net assets are released to unrestricted net assets.
- *Permanently restricted net assets* include contributions that donors have restricted in perpetuity. The investment return (classified as temporarily restricted) is for camp maintenance and Emerald Circle Gold Award scholarships.

Contributions are recognized as revenue at fair value when an unconditional commitment is received from the donor. Contributions received with donor stipulations that limit their use are classified as restricted support. Conditional contributions are recognized in the same manner when the conditions are substantially met. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets

that must be used to acquire long-lived assets are classified as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, GSSJC reports expirations of donor restrictions when the assets are placed in service.

Donated materials, use of facilities, and services – Donated materials and use of facilities are recognized at fair value as unrestricted contributions when an unconditional commitment is received from the donor. The related expense is recognized as the item is used. Contributions of services are recognized when services received (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation.

A substantial number of volunteers have contributed their time to fill approximately 47 Board of Directors and Board Committee positions, more than 300 community and 50 region positions, and more than 28,000 troop positions. These volunteers, who may fill multiple roles, provide assistance with programs, administration and fundraising. No amount has been recognized in the financial statements for these services because they did not meet the criteria for recognition under generally accepted accounting principles.

Revenue from product sales and program service fees are recognized when the related services or products are provided. Amounts received but unearned are included in the statement of financial position as deferred revenue.

Estimates – Management must make estimates and assumptions to prepare financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, the amounts reported as revenue and expenses, and the allocation of expenses among various functions. Actual results could vary from the estimates that were used.

Recent financial accounting pronouncement – In August 2016, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. The amendments in the ASU are the first phase of changes aimed at providing more useful information to users of not-for-profit financial statements. Under this ASU, net assets will be presented in two classes: *net assets with donor restrictions* and *net assets without donor restrictions* and underwater endowments will be grouped with *net assets with donor restrictions*. New or enhanced disclosures will be required about the nature and composition of net assets, and the liquidity and availability of resources for general operating expenditures within one year of the balance sheet date. Expenses will be required to be presented by both nature and function and investment return will be presented net of external and direct internal investment expenses. Absent explicit donor stipulations, restrictions on long-lived assets will expire when assets are placed in service. The ASU is effective for fiscal periods beginning after December 15, 2017, but early adoption is permitted. Adoption of this ASU will impact the presentation and disclosures of the financial statements.

**NOTE 2 – CASH AND CASH EQUIVALENTS**

Cash and cash equivalents consist of the following:

	<u>2016</u>	<u>2015</u>
Bank deposits	\$ 698,075	\$ 1,152,417
Repurchase agreements (overnight)	<u>2,144,045</u>	<u>5,463,817</u>
Total cash and cash equivalents	<u>\$ 2,842,120</u>	<u>\$ 6,616,234</u>

Bank deposits exceed the federally insured limit per depositor per institution.

### NOTE 3 – INVESTMENTS AND FAIR VALUE MEASUREMENTS

#### *Fair Value*

Generally accepted accounting principles require that certain assets and liabilities be reported at fair value and establish a hierarchy that prioritizes inputs used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The three levels of the fair value hierarchy are as follows:

- *Level 1* – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the reporting date.
- *Level 2* – Inputs are other than quoted prices included in Level 1, which are either directly observable or can be derived from or corroborated by observable market data at the reporting date.
- *Level 3* – Inputs are not observable and are based on the reporting entity’s assumptions about the inputs market participants would use in pricing the asset or liability.

Assets measured at fair value at August 31, 2016 are as follows:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>

Assets measured at fair value at August 31, 2015 are as follows:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Investments:				
Fixed-income mutual funds:

Valuation methods used for assets measured at fair value are as follows:

- *Mutual funds* are valued at the reported net asset value of shares held.
- *U. S. Treasury bills* are valued using prices obtained from independent quotation bureaus that use computerized valuation formulas which may include market-corroborated inputs for credit risk factors, interest rate and yield curves, and broker quotes to calculate fair values, or active market makers and inter-dealer brokers.
- *Repurchase agreements* are overnight investments valued at the net present value of future cash flows.

These valuation methods may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while GSSJC believes its valuation methods are appropriate, the use of different methods or assumptions could result in a different fair value measurement at the reporting date.

Investments are exposed to various risks such as interest rate, market and credit risks. Because of these risks, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position and statement of activities.

#### *Investments and Investment Return*

Total temporarily restricted net assets	<u>\$ 5,005,169</u>	<u>\$ 4,176,538</u>

## NOTE 7 – ENDOWMENT FUNDS

The donor-restricted permanent endowments of GSSJC include two individual funds that were established for camp maintenance and Emerald Circle Gold Award scholarships. The Board of Directors of GSSJC has interpreted the Texas Uniform Prudent Management of Institutional Funds Act (TUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, GSSJC classifies the original value of gifts donated to the permanent endowment as permanently restricted net assets. The remaining portion of the donor-restricted endowment funds that are not classified as permanently restricted net assets are classified as temporarily restricted net assets until those amounts are appropriated for expenditure by GSSJC in a manner consistent with the standard of prudence prescribed by TUPMIFA. In accordance with TUPMIFA, GSSJC considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the funds
- The purposes of GSSJC and the donor-restricted endowment funds
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of GSSJC
- The investment policies of GSSJC

Endowment net asset composition as of August 31, 2016 is as follows:

	<u>UNRESTRICTED</u>	<u>TEMPORARILY RESTRICTED</u>	<u>PERMANENTLY RESTRICTED</u>	<u>TOTAL</u>

### Investment Return Objectives and Risk Parameters

GSSJC has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs and entities supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of a portfolio that is invested approximately 40% in equity-based securities and 60% in fixed-income securities while assuming a moderate level of investment risk. GSSJC expects its endowment funds, over time, to provide an average rate-of-return of approximately 5% annually, net of fees and inflation. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, GSSJC relies on a total return strategy in which investment return is achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). GSSJC targets a diversified asset allocation that places a greater emphasis on fixed-income security investments to achieve its long-term return objectives within prudent risk constraints.

### **Spending Policy**

GSSJC has a policy of not appropriating more than 95% of the annual real total return, net of investment management fees, of the immediately preceding four quarters. Appropriations are considered annually by the Finance Committee. In establishing this policy, GSSJC considered the long-term expected return and the effects of inflation on its endowments. This is consistent with GSSJC's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

### **NOTE 8 – EMPLOYEE BENEFIT PLAN**

Eligible employees of GSSJC may participate in a §401(k) defined contribution retirement plan. GSSJC matched each employee's after tax contribution up to 2% of their salary in 2015 and 2016, and may also make discretionary contributions annually to all employees. GSSJC contributed approximately \$67,000 and \$63,000 to the plan in 2016 and 2015, respectively.

### **NOTE 9 – LINE OF CREDIT**

GSSJC entered into a \$2,000,000 line of credit agreement with a bank, which bears interest at the bank's prime rate minus 1%. The line of credit expires on March 30, 2017. There are no amounts outstanding on the line of credit at August 31, 2016.

### **NOTE 10 – SUBSEQUENT EVENTS**

Management has evaluated subsequent events through December 14, 2016, which is the date that the financial statements were available for issuance. As a result of this evaluation, no events were identified that are required to be disclosed or would have a material impact on reported net assets or changes in net assets.
